# ABOUT

Bullfit started with a vision to provide quality water solution products with the main motive to provide heavy - duty premium products to end consumers at affordable prices to meet the nation's constantly increasing water demands. Bullfit is a symbol of innovation and setting new industry standards by providing new trends in piping solutions.

## ( Timeline )

# MISSION

To continuously innovate, develop and provide solutions to market needs in our industry. We seek to achieve customer satisfaction by exceeding their quality, delivery, and cost expectations through continuous improvement and customer interaction.

## VISION

Continuously introduce new and innovative high-quality products.

Focus on providing high-quality products in the market.

Creating value for employees and becoming the “preferred employer” in the industry.

Competing with the Top 5 companies in India regarding quality and customer satisfaction.

## VALUES

- We believe in quality
- We invest in people
- We set new industry standards by constant innovation
- Strict quality checks
- Building a local community

# COLUMN PIPES

Bullfit uPVC Columns are heavy - duty uPVC materials, making these pipes ideal for handling water under high pressure. Our pipes keep the soil and water nutrition as well as structure intact.

Bullfit Column pipes do not require any fittings as one side is female, and the other side of the pipe is threaded. This makes the pipes cost-effective and efficient.

The inner surface of the pipes is smooth, which does not allow high pressure on joints.

**Domestic  
Use**

**Industrial  
Mining**

**Irrigation**
